Advanced Electrolysis &
Aesthetic Skin Therapist.

Welcome to DeLisle Beauty Clinic

Since beginning my career in beauty over 20 years ago, I have dedicated myself to this fascinating field by continuous learning and training in advanced therapies. I have also designed and delivered training programmes and courses privately and on behalf of the local college.

Over those years I have excelled at providing treatments to meet the needs of many lovely clients, from luxurious manicures to the most advanced cosmeceutical facial treatments using products that I have selected based on reliable medical evidence based studies and outstanding results.

My aim is to offer you the very best, personalised exceptional care and expert advice for whatever your treatment need.

I would love to welcome you to my private, and well-appointed clinic room in the coastal town of Bournemouth.

ELECTROLYSIS

PERMANENT HAIR REMOVAL

Electrolysis treats each hair follicle individually with a very fine, disposable, sterile probe to permanently destroy the follicle's ability to reproduce, thereby significantly reducing and removing hair growth on completion of the course of treatment.

Electrolysis treatment can be adapted to suit each individual client by adapting current intensity, timing application and probe type. A thorough consultation and patch test is required prior to every new course.

Electrolysis	£25 per 15 minute session
Course Package Price	£125 for 6 x 15 minute sessions

THREAD VEIN REMOVAL

Thread veins (broken capillaries) are sometimes called spider or broken veins. They are completely harmless and can appear on the face, typically on the nose and cheeks. Veins appear more visibly as you age as there becomes less collagen in your skin.

There are many other collective causes from hereditary, sun damage, menopause, high blood pressure, smoking, alcohol, blood pressure, medications, asthma, hay fever, extreme temperatures, incorrect cosmetic products. The Electrolysis procedures successfully treat this. A thorough consultation and patch test is required prior to every new course.

Thread Vein Removal	£42 per 15 minutes

MILIA REMOVAL

Milia are white or yellowish raised cysts, bumps or spots on the skin. They are normally found around the eye area and cheeks, but can appear anywhere on the face or body. Unlike a spot, milia feel quite hard, almost like a small piece of grit under the skin, and do not have any redness or inflammation as you might expect with acne related spots. Milia are effectively removed with this relatively non invasive pain free treatment.

Milia Removal	£30 per 15 minutes
